Government Order No. E. 2147-49—Edn. 3-30-8, dated 16th June 1931, passing orders in the matter of adopting Kannada as the medium of instruction in certain High Schools as an experimental measure in regard to the teaching of History and Geography.

2. Government Order No. E. 1731—Edn. 183-32-3, dated 21st November 1931, sanctioning, with effect from 1931-32, the teaching of Elementary Mathematics in Kannada in one or more sections in such High Schools as have two or more sections, English being employed as the medium of instruction in at least one section for the benefit of such pupils as prefer to be taught in English or are unable to follow the teaching in Kannada.

3. Government Order No. E. 859—Edn. 96-35 2, dated 14th September 1935, approving of the action of the Director of Public Instruction in having permitted the use of Kannada as the medium of instruction in teaching Additional Mathematics to the students of the High School classes of the

4. Government Order No. E. 4114—Edn. 312-36-2, dated 31st May 1937 according sanction for the teaching of Science subjects in Kannada in the High School classes from the year 1937-38, subject to the limitation that one section in the several large High Schools with more than one section will have instruction imparted in all the optional subjects in English for the benefit of those whose mother tongue is not Kannada, while in High Schools with only a single section in each form, English will be the sole medium.

5. Correspondence ending with letter No. T3-5003-10 of 1941-45, dated 14th July 1945, from the Director of Public Instruction regarding admission of pupils to the English and Kannada medium sections in the High Schools.

ORDER No. E. 1606—Edn. 1943-19, DATED BANGALORE,  
THE 26TH SEPTEMBER 1945.

In the year 1941, the then Director of Public Instruction brought to the notice of Government that English medium sections in all the Government High Schools were overcrowded and that there was considerable dissatisfaction with the principle of compulsion employed by the department in

sections in the High Schools. He was strongly of the view that there should be no fixity in regard to the number of sections having either the one or the other of the media of instruction and that it should all be a matter of demand and provision, the number of sections with each of the two media being made flexible and solicited orders of Government in the matter. He was then informed that the existing practice might continue for some time more.

2. In April 1944, the Director of Public Instruction issued a memo directing, among others, that the strength of the English medium sections should not exceed the prescribed limit of 40. Certain members of the public represented to Government, in June 1944, about the inconvenience caused by the restriction placed upon admission to the English medium sections in the High Schools. The Director of Public Instruction was then informed that pending issue of further orders in the matter, the Heads of High Schools may be instructed to admit all deserving pupils, to the extent possible, to the English medium sections. He was further requested to examine, in consultation with the Secondary Education Board, whether the rules in this behalf required any relaxation and, if so, to what extent.

3. The Director reports that the Secondary Board of Education, to whom the matter was referred, have resolved that "the present rules in regard to the admission of pupils to the English and Kannada medium sections in High Schools be relaxed so as to give freedom to the pupils and the parents to choose the medium of instruction they preferred." The

(i) That the present policy of showing the first preference to non-Kannada pupils and to those whose second language in the Middle School was not Kannada, and then admitting Kannada pupils to the maximum limit of the English medium section, be continued;

(ii) That in order to meet the large demand for admission to the English medium section, additional facilities be afforded by the opening of one more section of the English medium, wherever necessary, to accommodate greater number of pupils, who would like to take up English as the medium of instruction; and

(iii) that a Committee be formed in each High School to decide the question of admission of pupils into the English medium section.

Headmasters and Headmistresses of Government High Schools in the matter:—

- (i) One additional English medium section of each class may be opened in all the Government High Schools where the number of pupils desiring instruction through English is at least 55.
- (ii) Pupils whose mother-tongue is Kannada and those who have passed the Middle School Examination with Kannada as Second Language should be encouraged to take the Kannada medium, as far as possible.
- (iii) No pupil whose mother-tongue is not Kannada or who had offered a language other than Kannada as Second Language at the Middle School Examination should be refused admission to the English medium sections.
- (iv) If, after the needs of pupils referred to in para (iii) above are met, there is demand for the English medium from other pupils, such pupils may be admitted up to the limit of two English sections of each class, the maximum number in each class in no case exceeding 50.

- (v) An additional English section of a class need not be opened unless there are at least 55 pupils desiring the English medium.

4. The proposal of the Director of Public Instruction is approved. The arrangement sanctioned will be in force for a period of two years from the next academic year. The Director is requested to review the position after two years and submit a report to Government thereafter.
